## TOP 10 HILARIOUSLY AWESOME PICK UP LINES THAT ACTUALLY WORK

When you think of pick up lines the first thing that probably comes to mind is the yawn-inducing schmuck at the bar who can't seem to get the hint. Just because his mom told him he was charming and funny, doesn't make it so.

Or maybe just the thought of a pick up line makes you cringe! We've all heard those tired pick up lines that don't win any points with the ladies and are as likely to get you a cold shoulder as a phone number.

For those in need of a fresh take on the tried and true pick up line favorites, here we bust out the top 10 pick up lines for both guys and girls, sure to land you more than a raised eyebrow or drink in your lap.

- 1 **How much does a polar bear weigh? Enough to break the ice.**  
Sure, we started with a little bit of cheesy-cute goodness to kick things off. But hey, who doesn't love a little bit of adorable thrown in with that spice?
- 2 **Want to help me test whether this lipstick can really last 12 hours?**  
It's a bit risqué, but only if your target has a dirty mind. If he/she starts breaking down methods for scientific observation involving blotting on a piece of paper, leave Captain Oblivious alone at the bar.
- 3 **Do you believe in love at first sight or should I introduce myself again?**  
Any sane person loves a bit of confidence in their date. Show your mark who's boss with this strong come on.
- 4 **What's the best pick up line you've ever used?**  
Hey, it never hurts to get a little bit of extra material from an expert. This one is also an excellent method for judging a person's Rico Suave game.
- 5 **Is that an iPhone X in your pocket or are you just happy to see me?**  
Sure, it's cliché. And maybe a bit saucy. But asking about what tech a guy is carrying can break the ice and get you a laugh in the bargain.
- 6 **Other than being sexy, what do you do for a living?**  
Part joke, part flattery, part getting to know a person, this line has a little bit of everything and is a surefire way to make an instant connection.
- 7 **Could you help me figure out a glitch with my phone? I can't seem to find your number in it.**  
Worse case scenario you get an eye roll. Best case scenarios you'll snag some digits for that follow up date.
- 8 **You're so gorgeous you made me forget my pick up line.**  
Can we all say awwww at this adorable go-to for making a connection. It's a pick up line disguised as not a pick up line, disguised as an icebreaker.
- 9 **If I could rearrange the alphabet, I'd put "U" and "I" together.**  
Anyone who's completed at least a kindergarten education won't be able to help but to laugh at this beauty. This one would probably make a decent IQ test as well.
- 10 **Do I know you? No? Well we should fix that.**  
When played right, this line does double duty treading the thin funny versus serious line.

So, there it is, 10 fresh takes on the old-school concept of a pick-up line. Try out one or more of the above and ditch the old and ragged avenues for conversation at the door because you only have one chance to make a great first impression.

Remember the key to any cold conversation is a big dose of confidence. Sell you pick up line, whichever you may choose, with a smile and a wink and show that you aren't afraid of taking the reins when you see someone, or something you like.
